

DECOTURF CUSHIONED COURT SURFACES

DecoTurf cushioned tennis court surfaces are regularly chosen for use at the world's most prestigious events. Our tennis surfaces have been selected for use at many of the most notable venues around the world. Whether you are a tournament director or a college coach, an architect or a homeowner, demand DecoTurf surface systems. If you want to play like a pro, make sure you're playing on a Deco surface.

1. Filler Course

Acrylic Resurfacer blended with approved silica sand.

2. Heavy Rubber Course

DecoTurf[®] II, specially graded large rubber particles provide the system its distinct cushioned playing characteristics.

3. Fine Rubber Course

DecoBase[®] II, specially graded large rubber particles creates a smooth cushioned finish in preparation for the texture and finish courses.

4. Texture Course

DecoBase I, blended with DecoColor MP provides a uniform surface texture and determines the speed of play and traction of the court.

5. Finish Course

DecoColor creates a vibrant, durable finish highly resistant to weather and ultraviolet degradation.

6. Lines

A heavy bodied acrylic latex white striping paint comes in both textured and untextured.

DecoTurf®

The secret to our high-quality cushioned system is in the materials.

We make our surfaces with 100% acrylic resins and select SBR rubber granules that are designed to absorb impact and redistribute pressure. Made with post-industrial recycled materials, we can build Deco Cushion surfaces to meet the requirements of players at any level, and to ITF standards.
