

WIPE-OUT® STAIN BLOCKER

Wipe-Out Stain Blocker is a concentrated acrylic latex stain blocking primer that provides exceptional adhesion and stain blocking properties as a preparation for the installation of athletic surfaces. Wipe-Out is intended to impede the migration of most bleeding stains on new asphalt or concrete surfaces, as well as existing acrylic surfaces.

WHAT CAUSES RUST SPOTS?

- Some excerpts borrowed from the ASBA Position Paper "Rust Spots", March 2004

In some parts of the country, the crushed stone aggregate used in asphalt may contain iron or other contaminants.

It is impossible to obtain a guarantee from an asphalt producer or supplier against the presence of this material, particularly if its source has a history of providing aggregates containing iron. Also, since a producer's source of aggregate may vary from time to time, it is impossible to predict whether a particular batch of asphalt will contain iron or to rely on the fact that the asphalt from a given producer or supplier has not contained iron in the past. Therefore, this condition is beyond the control of the contractor and the contractor cannot assume responsibility. In areas where this occurs, it will affect all local contractors equally.

If iron is present, it may oxidize, forming rust spots or streaks in the surface of the court. These spots or streaks, while unsightly, will not affect play or shorten the useful life of the court.

Wipe-Out Stain Blocker, applied over new or existing asphalt or concrete, or previously coated surfaces, will inhibit the transmission of stains through your surface and should be used on any court where iron pyrites or other contaminants may be present.

INTERIOR AND
EXTERIOR USE

Wipe-Out Stain Blocker can be applied over new or existing asphalt or concrete surfaces that have a sound base of adequate thickness and stability.

Existing surfaces should have good drainage and be free from cracks and depressions.

IDEAL FOR USE ON:

TECHNICAL SPECS

SKU #	4203
AVAILABLE SIZE	30 gallon or 55 gallon drum
COVERAGE RATE	0.04-0.06 gal/yd ² or 0.18-0.2 L/m ²
APPLICATION	50-70 durometer rubber squeegee
DRYING TIME	2 hours per coat
COLOR RANGE	Black

OUR COMMITMENT TO QUALITY

Since 1953, California Sports Surfaces has provided customers with a premier offering of acrylic surface systems. Our products include DecoTurf, Plexipave, Rebound Ace, Premier Sports Coatings, Plexitrac, SignaSports, Sport Tough and StreetScape. We provide the world with comfortable, high-performance cushioned surfaces for a variety of professional, collegiate and recreational sports as well as decorative projects, bike lanes, parking lots and more.
