

PREMIER SPORTS COATING

World-class performance coatings that are great for residential courts, clubs, colleges and universities, but they are also designed to meet the rigorous requirements of municipalities and other recreational facilities.

- Official Surface of Mubadala World Tennis Championship in Abu Dhabi, UAE
- Has been chosen for use for several Davis and Fed Cup ties
- A surface that assures the player both sure-footedness and a consistent ball bounce
You can even vary the "playing speed" to render a slow, medium, or fast court
- Surface of choice for all sorts of athletic courts- from tennis to basketball to volleyball and everything in between
- Revolutionary space-age fiber, which is added to the acrylic binder, is how we're able to assure you of trouble-free playing enjoyment for years to come. Thanks to the extra strength of these fibers, Premier surfaces consistently outlast the competition
- Vibrant, fade-resistant colors that contain more pigments, as well as special pigment-enhancers, to ensure you get the very best color. You will enjoy that deep, rich color throughout the life of the surface

MULTI-SPORT SURFACE SOLUTIONS FOR:

BASKETBALL

PICKLEBALL

TENNIS

NETBALL
