

## REBOUND ACE AIR CUSHION 8 MAT SYSTEM

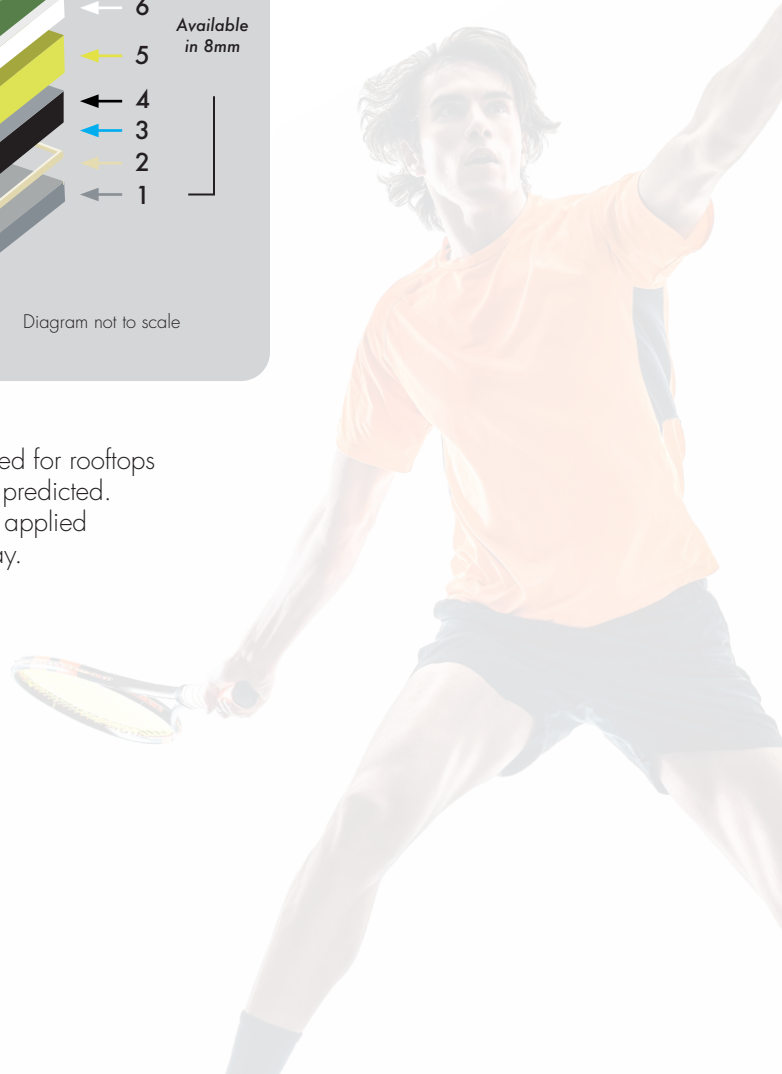

A unique Dynamic Cushion Base (DCB) provides an alternative to expensive asphalt and concrete bases for both new courts and court conversions. When combined with the Rebound Ace<sup>®</sup> Air Cushion surface, the DCB system provides a very economical high quality cushioned playing surface, ideal for tournament and recreational play as well as good stroke and tactical skills development for junior players.

1. System Base - DCB, Clay, Asphalt, Concrete, Indoor Carpet, Synthetic Grass
2. Edging Adhesive
3. Air Layer
4. Rubber Shock Pad 7mm
5. Mat Sealer X2
6. Reinforcement Layer
7. Filler Coat X2
8. Playing Surface X2
9. Line Marking

The application process of the air cushioned technology was created for rooftops and surfaces with expansion joints, where subsurface movement is predicted. To accommodate the surface movement, a high-quality adhesive is applied along the exterior of the mat to promote more competitive gameplay.

- A more economical surface
- Ability to cover old cracked court surfaces
- Cost reduction by using Dynamic Cushion Base
- Ease of conversion from different variety of existing surfaces, eg. clay, indoor carpet, acrylic hardcourts
- Suitable indoors or outdoors
- The solution for resurfacing or converting: worn synthetic grass, old concrete/acrylic, cracked asphalt/hardcourt & clay

### MULTI-SPORT SURFACE SOLUTIONS FOR:

A high performance system that actually reduces stress on the body.

Rebound Ace® Air Cushion retains all the design, performance and playing properties of the proven, patented Rebound Ace® surfaces.
