

DecoTurf[®] + COOLTOP

DECOTURF CUSHIONED SYSTEM, INCLUDING HEAVY & FINE RUBBER COURSE CUSHION LAYERS
COOLTOP ULTRA COLOURED TOPCOATS IN NORDIC BLUE AND FOREST GREEN

CHUNKI INDUSTRIAL CONSTRUCTION CORPORATION

YANGJU CITY ROOFTOP

YANGJU CITY, GYENONGGI-DO PROVINCE, SOUTH KOREA

636m²

THE PROJECT

The Yangju City rooftop court is located on the new Woojin Trading Co., Ltd. building. Kwak Jae-ok – CEO of Woojin Trading Co., Ltd commissioned Chunki Industrial Construction Corporation to install a DecoTurf surfacing system complete with CoolTop coloured topcoats.

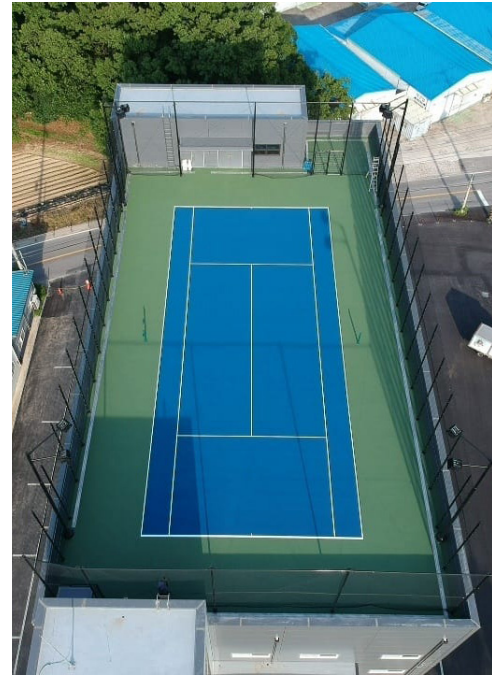

SPECIAL REQUIREMENTS

Player comfort was identified as a key requirement and this was delivered via California Sports Surfaces CoolTop coloured topcoats, which are specially formulated with IR reflective pigments that help reduce the surface temperature through solar reflectance. In addition, an acrylic cushioned system that can provide therapeutic benefits to players by reducing the stress on muscles and joints was also identified as a key requirement for this rooftop tennis court installation.

THE SOLUTION

By combining the CoolTop IR reflective pigment technology in the coloured topcoats with the shock absorbing therapeutic DecoTurf cushioned underlayers, the perfect combination of player comfort has been achieved with this first installation in Korea of a DecoTurf / CSS CoolTop system.
