PALMERSTON TENNIS
Moulden, Northern Territory, Australia

THE PROJECT

Resurfacing of 7 tennis courts and 6 netball courts on the existing asphalt base.

THE RESULTS

Palmerston, located in the Northern Territory, experiences consistently high temperatures throughout the year. To enhance player comfort, CoolTop was applied to all courts, helping to significantly reduce the surface temperature compared to traditional coatings. This advanced surface technology reflects heat rather than absorbing it, creating a cooler playing environment and improving overall playability for athletes year-round.
