CSS LumiLayer® Glow-in-the-dark Coating 5008

DESCRIPTION:
LumiLayer is a clear, acrylic sealer intended to provide “glow-in-the-dark” characteristics over existing athletic lines, logos and other surface markings.

SURFACE USES
LumiLayer is intended to provide reflective glow appearance when applied over line markings on athletic surfaces, such as pickleball and tennis courts. Best results are achieved when applied over White Line Paint, but LumiLayer can also be used to enhance colored coatings.

APPLICATION
Can be applied by squeegee or short nap phenolic core roller, but for best coverage and appearance, a brush is recommended. Apply in two thin, wet coats. Do not allow to puddle.

DRYING TIME
Allow LumiLayer to dry in 4 hours after application. Completed projects should be allowed 24 hours before being opened for play.

MIXES
CSS LumiLayer is supplied ready-to-use. Do not dilute.

COVERAGE
Approximately 150-200 square feet per gallon, depending on surface texture. (One gallon generally required for one standard-sized tennis court – 2” wide). Two coats are recommended for best appearance.

LIMITATIONS
- Do not apply if rain is imminent within four hours
- Do not apply if surface temperature in excess of 140 °F (60 °C).
- Do not apply if the temperature is below 50 °F (10 °C).
- Do not allow CSS LumiLayer to run or drip on adjacent areas.
- Clean all equipment immediately after use with water.
- Keep from freezing.
